SB234	SB237	12.06.18

**Left:** Refurbished Spoil and Ballast Wagon SB253 at Eastleigh on 14 May 2018, looking resplendent after shot-blasting and repainting. A total of 60 ex-BR 4-axle Turbot wagons were modified by ABB at Crewe for London Underground. They were built variously by BR at Shildon and Swindon, and RFS at Doncaster between 1982 and 1988. They were delivered to London Underground during January and February 1996. Now, eight are being scrapped and 52 refurbished.
