ESCALATORS OUT OF SERVICE BUT STILL IN SITU:

Alperton	3	(<u>excluded</u> in totals above)
Charing Cross	4/6, 7/8/9	(<u>included</u> in totals above)

HISTORICAL NOTES:

The escalator (KC1) at King's Cross (Thameslink) is an Otis HD-B type. It was installed and commissioned by LUL, and handed over to British Rail before King's Cross Midland (as it was then called) opened. The escalator was never numbered in with the rest of the King's Cross fleet and is currently a NR asset, maintained by Metronet.

Charing Cross No.13 was also installed by LUL, although the subsequent handover to British Rail took place long after it had gone into service.
